Monster Light 360 Twin is an advanced portable lighting system designed for uniformed services, rescue operations, and industrial use. It has two three-segment heads on telescopic masts, allowing precise lighting adjustments. In Boost mode, the spotlight generates 48,000 lumens. The built-in 50 Ah battery provides up to 20 h and 50 min of operation in Low mode, with a charging time of 7-8 h. The IP66 rating ensures protection against dust and water. The set includes two heads, two masts, six diffusers, a 230V AC charger, and a durable carrying case.
