Range: Hand Protection

Materials: Goat Grain Leather, 100% Polyester, Elastic, Expanded Polypropylene (EPP) , UHMWPE, 100% Nylon

Inner Pack: 12

Outer Carton: 96

Product information

Engineered for professional chainsaw operators, these gloves are designed to provide exceptional protection, durability, and comfort in demanding forestry and arborist applications. The left glove is fitted with a high-performance UHMWPE protective guard, certified to EN 11393-4:2019, Class 1 (20 m/s), offering reliable resistance against chainsaw cuts while maintaining flexibility and control. The right glove is unlined to maximise dexterity and tactile sensitivity, allowing precise handling of chainsaws, controls, and tools. Constructed with a premium goat leather palm, the glove provides enhanced grip, abrasion resistance, and long-lasting comfort. Additional leather reinforcement in the thumb crotch and finger areas increases durability and protection in high-wear zones, extending the glove's service life and ensuring dependable performance in tough working conditions.

Specialist Gloves

The Portwest Pro range is a combination of highly specialised gloves which have been designed for very specific tasks. The use of these gloves with the right task will perform better than any other glove which has been designed for more general purposes.

Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwest's extensive range of Hand Protection products...
